Building a Home On Easy Payments

That's an attractive proposition for anybody who has been paying rent to make the other fellow rich, all these years. The trouble with most folks is that they don't know how to do it—it seems like betting on the other fellow's game. After you master the theory and practice of the building association it seems odd that you make such a mistake as to pay rent all these years.

Words vs. Actions.

Speaking of Larrazolo the Las Vegas Optic says, "Were all his fervid oratory increased a hundred fold it would avail nothing against the man who does things."

Yes, right at this juncture we might just as well come upon the carpet and admit that the new railroad and cheap coal that Andrews secured for the Pecos Valley will draw the voters to him in droves.—Artesia Advocate.

Rev. R. W. Lewis an Inventor.

Rev. R. W. Lewis, the evangelist, whose home is near Cumberland City, Townsite, is the inventor of a cuff-holder which he and J. D. Render, of Roswell, have patented. The holder is certainly a clever device. It is adjustable so that the cuff can be fastened to the sleeve at any height desired, and holds the cuff immovably. Rev. Mr. Lewis found the necessity in preaching, when his cuffs would often slip down over his hands in making gestures. He overcame the difficulty by making cuff-holders for himself. When Mr. Render saw the device, he suggested having it patented. The two now own the patent jointly. They have received several tempting offers for their patent from manufacturing concerns in the East, and some of them offer to pay a royalty on the sales.
